

**Medical & Surgical Release**

**Consent Form**

I hereby consent and authorize the Dayton South Veterinary Clinic to receive, prescribe for, treat, hospitalize, or operate upon my pet(s). You are to use all reasonable precautions against injury, escape, or destruction of my pet(s), but you will not be held liable or responsible in any manner whatever, or under any circumstances, on account of the care, treatment, or safekeeping of the pet(s) above described, or otherwise in connection therewith, as it is thoroughly understood that I assume all risks. I will assume the responsibility of my pet(s) when taken without the consent of the attending veterinarian.

I also understand that the Dayton South Veterinary Clinic is not staffed twenty-four (24) hours a day, and after-hour treatment of patients is at the discretion of the veterinarian.

I understand that I will need to contact the clinic at the time directed by the doctor or staff to learn of the discharge time for my pet(s). Five days later a written notice will be mailed to my address-of-record to remove the pet(s). Five days following such written notice, the pet(s) will be considered abandoned and may be disposed of, or destroyed, as you deem best. It is understood that your doing so does not relieve me from paying all costs of your services and the use of your hospital, including the cost of boarding.

I have read the foregoing and agree.

**Home Again Microchip**

A pet microchip creates a forever bond between you and the pet you love. And together with the Home Again pet recovery system, you'll give your pet the best chance of coming back home to you. If your pet is lost or stolen, this system can notify you if your pet is picked up anywhere in the country. The process is similar to a routine shot, takes only a few seconds, and your pet will not react any more than he would to a vaccination. No anesthetic is required.

- Yes**, I want my pet to receive the Home Again Microchip.
- No**, I do not want my pet to receive the Home Again Microchip.
